

Programme Outcomes of M.A./M.Sc. Economics

Programme Outcomes (POs) of Post Graduate Degree Course in Pragjyotish College is permanently affiliated to Gauhati University and it follows the programme wise curriculum designed by the university. However, Pragjyotish College, Guwahati has its own mechanism to communicate the learning outcomes of the curriculum to the teachers and the students. The Programme Outcomes (POs) of Post Graduation Course may be stated as follows:

- To make the students acquainted with the changing economic scenario of the world economy.
- To enable the students to understand the theories and strategies of growth and development.
- To be able to pinpoint and understand the past, present economic conditions of the country.
- To make the students ready for research; the value added courses in the M.A. /M.Sc. first semester and second semester equips the students ready with the quantitative tools.
- To be able to forecast the future course of changes and development through the knowledge of policies and programmes set by the governments and other development agencies.
- To create awareness about Environment and Sustainability: The M. A./M. Sc. Programmes help to understand the various issues of environment degradation and sustainable development for the students
- To teach analytical and problem solving skill: The programs also help to understand the situation rationally, logically and analyse and solve any problem adequately.
- To be acquainted with the Socio-Economic Critical Thinking: The M.A./M.Sc. students will be acquainted with the social, economical, historical, geographical, political, ideological and philosophical tradition and thinking.
