6. Procedure for internal evaluation
- 6.1 Sessional examination
- The sessional examination will be of a duration of two hours for a paper of 40 marks, to be conducted by the concerned teacher of each paper. However, the examination marks will be normalized to 20 irrespective of marks for which the examination is conducted. The setting of question paper, invigilation duty, evaluation of answer scripts for each paper will be done by the concerned teacher(s) as a part of his/her normal duty without hampering normal classes.
  - The teacher(s) concerned will fix the exact date of the sessional examination in each paper. The students shall write their answers in the sessional examinations in proper "additional answer scripts" of GU.
  - After evaluation, the answer scripts shall be shown to the students and corrections regarding evaluation should be made, if any. After this, the answer scripts should be collected back from the students.
  - The entire process of evaluation of the sessional examination should not take more than two weeks from the date of examination.
  - There is no provision for "betterment" in the sessional examination. If a student fails in an internal examination, s/he will be allowed one more attempt to clear it in a special examination to be conducted within the same semester. In case a student fails to clear the sessional examination in two attempts, s/he will be given one final opportunity to clear it in the next similar semester examination.
  - If a student fails to appear in sessional examination for valid reason(s) supported by medical certificate or other authentic documents submitted to the college authority, then the teacher/college concerned shall allow the student to appear in a separate examination in a suitable date fixed by the respective teacher before the commencement of the end semester examination.
  - If a paper is taught by more than one teacher, then the concerned teachers will cooperate in conducting the internal evaluation.
  - At the end of the semester and before the final semester examination, the concerned colleges will upload the marks at the GU portal as notified
  - Scrutiny of answer scripts will be done by the college Examination Committee formed by the Principal with the faculties of the college. During scrutiny, if discrepancy is observed in

Q2.

(a) RNA processing: ~~RNA~~ The RNA processing can be followed by 3 steps:-

① Transcription: The transcription is done when the RNA primers attached to DNA and start copying.

② splicing: The removal of introns (non-coding) from the sequence is done to form mature mRNA.

③ Translation: The RNA are attached with the anticodons to receive amino acid and form proteins.
